Why Hanex®?

What makes it the surface everyone's after...

Page

1

Choice

72 decors to choose from.

2

Environment

Solid surface that's kinder to the planet.

35

Fire Rating

The rating that sets Hanex® apart.

36

Wellbeing

Safe surfaces for every space.

37

Why Hanex®?

Hanex® Solid Surface is made from over 70% natural minerals combined with 100% pure acrylic, **without any polyester fillers - this is really important.**

This unique composition makes it easy to thermoform and ensures a smooth, flawless finish that's built to last.

The result? A solid surface that's durable, flexible, and visually stunning.

Choice

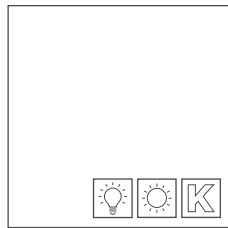

The properties of Hanex® Solid Surface allow for a wide range of design possibilities, including seamless jointing, machining, 2D and 3D thermoforming, backlighting, engraving, coloured inlays, and sublimation printing.

Thanks to its inherently amorphous structure, Hanex® makes even complex and intricate designs easily achievable.

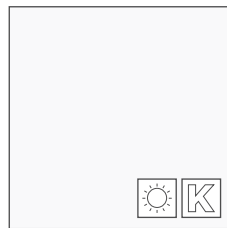

Let's take a look at those all important colours...

Solo Collection

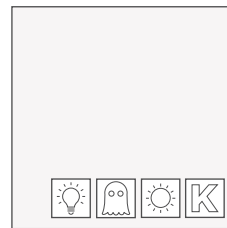

Subtle colours with some translucent options

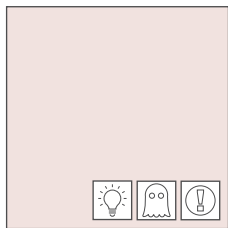

S-008
N-White

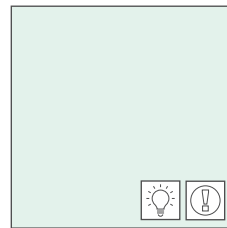

S-101
D-White

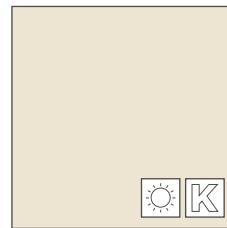

S-001
R-White

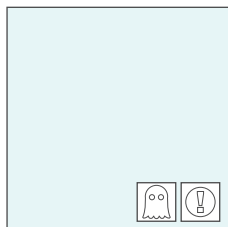

S-025
Cherry Blossom

Icons explained

K

Kitchen

Specifically recommended for kitchens due to their ability to withstand heavy use and high traffic.

Disclaimer

Heavily pigmented colours that are prone to showing scratches and wear; not recommended for heavy-use residential or commercial applications and not covered under the standard warranty for wear and tear.

Directional

Reflections in these colours may vary based on light and viewing angles, requiring consideration during design.

Translucent

Certain colours possess translucent properties.

Facade Decor

Suitable for outdoor use, with suitability and warranty information available upon consultation.

Veining

Features sophisticated, nature-inspired veined patterns; consultation recommended for optimal use.

Backlighting

Some colours exhibit higher translucency when exposed to light sources.

Environment

Hanex® is produced using a high mineral content, reducing the need for acrylic and making the product more environmentally friendly.

It uses 100% recycled water during production, avoiding chemical processes commonly used by other brands.

By incorporating recycled chips, Hanex® meets SCS standards and keeps waste to a minimum.

The surfaces are also fully recyclable, with the ability to be renewed, reused, and repaired, extending their lifespan and reducing environmental impact.

Fire Rating

All Hanex® décors, in all thicknesses and sheet sizes, conform to **EN 13501 - 1** and achieve a **Euroclass B - s1,d0** fire rating as standard.

All decors are thermoformable - we recommend consulting Lawcris regarding colour suitability and specific applications before fabrication.

Wellbeing

Hanex® is a safe and reliable choice for sensitive environments, as it is non-toxic, chemically inert, free from Bisphenol, unreactive, and hypoallergenic.

This makes it ideal for use in healthcare facilities, dental surgeries, laboratories, museums, and marine applications.

Hanex® also meets a range of key technical standards, including:

- GREENGUARD Gold
- NSF 51
- SCS-MC01974
- EN 13501-1
- IMO MED
